

# Student Reflection

**Student Name:**

**School:**

**Note to Teachers:** Your students may continue their comments on a new page, if necessary.

1. List at least 2 activities you did to understand the water issue. What did you learn from those activities?
2. What things did you do to participate in the Cal Water H<sub>2</sub>O Classroom Challenge project?
3. What are the major accomplishments of your Cal Water H<sub>2</sub>O Classroom Challenge project?
4. What did you learn from designing an engineering solution to your water issue?
5. What did you learn that you think others should know?
6. What personal actions will you change or what personal actions will you take as a result of this Cal Water H<sub>2</sub>O Classroom Challenge?
